distritos térmicos, ventilación y
acondicionamiento de aire

Centro de Eventos y Exposiciones del Caribe Puerta de Oro,
August 13th, 14th and 15th 2025

Barranquilla

VI INTERNATIONAL CONGRESS COMMERCIAL AND INDUSTRIAL REFRIGERATION, THERMAL DISTRICTS, VENTILATION AND AIR CONDITIONING

ACAIRE and its R&D center CIDARE invite you to join the panel of experts who will exchange knowledge on technologies and services that contribute to the energy transition, seeking to reduce the environmental impact, energy consumption and greenhouse gas emissions associated with systems that use refrigerants with low global warming potentials (GWP).

According to the IFC and UNEP report "Cooler Finance: Mobilizing Investment for the Developing World's Sustainable Cooling Needs", in 2023 the cooling market in emerging countries reached 272 billion dollars. In Latin America, growth of 31 billion is projected by 2050, which opens up opportunities for sustainable solutions.

THEMATIC AXES

1

Implementation experiences

Case studies and examples of implementation of disruptive projects and strategies.

2

Technologies for the future

Latest technological advances and innovative solutions.

3

Efficient use of energy and Non-conventional sources of energy

Strategies and plans that promote energy transition, making efficient use of energy.

4

Financial Strategies and Smart Investment

Strategies to strengthen business models and project management, making them more efficient and sustainable.

Thematic axes must be integrated with:

- Thermal Districts
- Commercial and Industrial Refrigeration
- Air Conditioning and Ventilation
- Indoor Air Quality
- Cold Chain

VI INTERNATIONAL CONGRESS
COMMERCIAL AND INDUSTRIAL REFRIGERATION, THERMAL
DISTRICTS, VENTILATION AND AIR CONDITIONING

Apply here!

- Applications open: November 2024
- Application deadline: March, 30th 2025
- Acceptance confirmation: April 2025
- Deadline for accepting presentations and abstracts: June 2025
